[HUMANITY ON THE MOVE](#) is a collection of films that includes two 30-minute documentaries about human migration and refugees:

[LOS COMANDOS](#), a teenage emergency responder wrestles with whether to leave El Salvador or stay and work amidst rampant gang violence and threats to her friends and family.

[TOWARDS THE NORTH](#), at a tiny refugee shelter in Tapachula, Mexico we meet Nelly and her daughter Joseline, who like millions of others, are fleeing extreme gang violence in Central America.
