The Senator and the Ladies

The New Mexico lady for a Senator means Thomas A. Catron, who, in his address to the assembled women of the state yesterday, not only proved himself a champion of woman's rights, but one of its foremost advocates. He gave the ladies a new lease on life, and said that they would never have to go into the legislature again. The ladies, in turn, gave the senator a new lease on life, and said that they would never have to go into the legislature again.
